DETAILED ACTION

Allowable Subject Matter

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance: prior art references do not teach or render obvious a floating gate memory cell comprising a conductive trace coupled to the source region; a source-line contact extending from the conductive trace to a lower well region; and an upper well region in the lower well region as claimed in claim 1 and claim 12.

Prior art references do not teach or render obvious a floating gate memory cell comprising a p-well enclosed in an n-well; a source-line contact extending below the n+ type source region to the n-well; and a conductive trace in the p-well and coupled between the n+ type source region and the source-line contact as claimed in claim 15, claim 20 and claim 21.

Prior art references do not teach or render obvious an electronic system having the structure arrangement as claimed in claim 22 wherein a conductive trace is coupled to the source region; and a source-line contact is extending from the conductive trace to a lower well region underlying the upper well region.

Prior art references do not teach or render obvious an electronic system having the structure arrangement as claimed in claim 23 wherein a source-line contact is extending below the n+ type source region to an n-well underlying the p-well; and a conductive trace in the p-well and coupled between the n+ type source region and the source-line contact.
